The former GE complex known today as Putnam Place at 166 Boulder Drive is a multi-tenanted campus serving DRS Power Technologies, the Fitchburg Public Library, the Worcester Northern District Registry of Deeds, NEON, Fitchburg Fiber, and the Fitchburg Redevelopment Authority (FRA).

During normal business hours, the parking lot is at its peak usage, sometimes offering no spots at any given time. However, after hours, the FRA welcomes events that will bring people to the downtown in a fun and positive way.
